# Who we are?

SAHAR Group, is a world-class FAA145 / EASA / AS9100D / AS9110C certified MRO & Research Center located in Miami, Florida. We specialize in:

- Design and engineering
- Complex Components Assembly and Testing
- High-speed CNC Machining and Fabrication
- Maintenance, repair and overhaul of airframe parts

We are focused on a forward thinking approach and synchrony with the latest technologies.

Our climate-controlled machine center is the perfect environment for the most precise processes to ensure that all aerospace manufactured parts are produced meeting the specific tolerances that our customers require.

SAHAR Group Aerospace Division has the infrastructure, CNC technology, software, certifications and expertise to manufacture several types of inserts, including but not limited to potted, dommed, threaded and non-threaded.

These inserts are used for sandwich-structured composites, overhaul and repair of composite material panels for rotorcraft and fixed wing aircraft.

We have the engineering and manufacturing know-how for Commercial and Military inserts. Our manufacturing quality is well above the market and the investment is very competitive for our customers.

# Parts And Tooling Manufacturing

With our team of engineers, we can manufacture precision components from a wide variety of metals, plastics, and composite materials. Using Computer Numerical Control (CNC) machines allows us to create a vast range of products with the required tolerances and the highest quality standards.

Design and Manufacturing of:

- Equipment
- Special tools
- Aircraft parts
- Ground Support Equipment
